

Do this first!

After printing, measure scale below with a standard ruler. If it does not match, change the printer options by going to File, then Print, and choose the following:

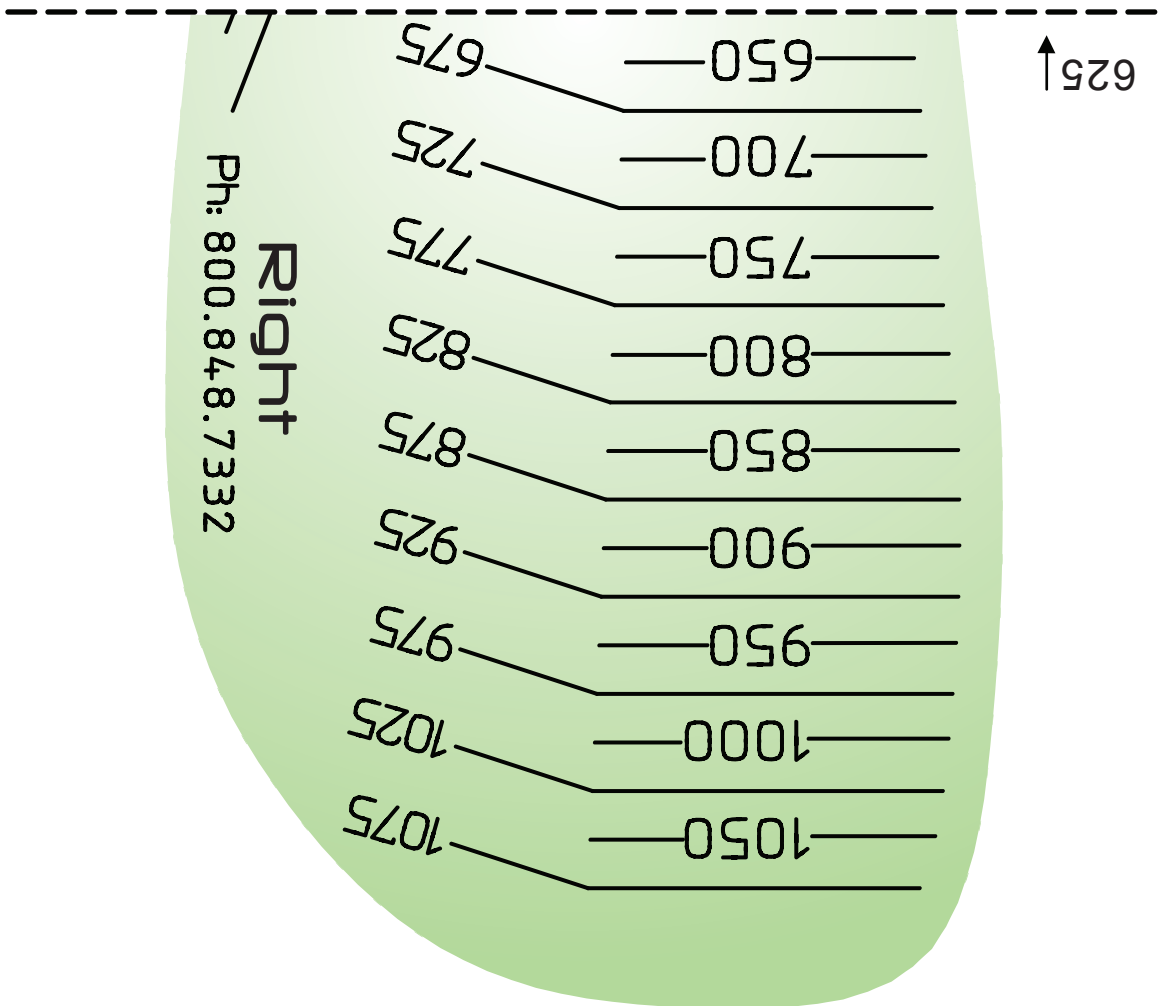

Under Page Scaling, select None.

DO NOT select "Fit To Printable Area" or "Fit To Page".

If there is a percentage option, make sure it is at 100%.

Fast Fit Sizing Jig Right Top

Cut / Fold along dotted line; Connect Bottom portion here.

Scale:

To Use The Sizing Jig:

1. Read **Do this first!** at the top of the page. If the scale is accurate, follow Step 2.
2. Cut / fold at dotted line. Connect Top and Bottom portions of sizing jigs at dotted line. Tape together.
3. Cut / fold page at the line below the heel of the Bottom portion sizing jig.
4. Place the paper sizing jig with its heel against a sturdy vertical surface: a door frame, a wall without molding or the spine of a thick book.
5. Make sure the patient is wearing socks. Stand the patient on the jig. The patient's foot should line up to the edge of jig at the heel and medial side.
6. Choose the size that will allow $\frac{1}{4}$ in. to $\frac{1}{2}$ in. (.64 cm to 1.3 cm) for growth.
